* FY 2013 was the year of sequestration where appropriations for the OAA Nutrition Program suffered a 6% cut from FY 2012 levels.

** The OAA Nutrition Program network is serving 21 million fewer meals in need than in 2005, due to declining federal and state funding, stagnant private resources, and rising food and operational costs. Level federal funding represents a cut at a time when the need and demand for nutritious meals has never been greater.
