

THERE'S STRENGTH IN NUMBERS: JOIN OR CREATE A STATE ASSOCIATION TODAY

We believe that the most effective way to tackle big challenges, harness the best talents and ideas and have the greatest impact is through collaboration at national, state and local levels. By establishing or participating in a Meals on Wheels-affiliated State Association, you can join other senior nutrition programs in state-level initiatives to increase funding, raise awareness about senior hunger and isolation, build community and corporate partnerships, and integrate with healthcare in more ways than any one program could do alone.

BENEFITS AND VALUE

State Associations provide a wide range of benefits. Connecting on a state level can foster innovation, networking and collaboration between Members in powerful new ways that range from the exchange of ideas and best practices, to professional development and training, grant-seeking and collective federal advocacy.

One of the greatest values of a State Association is collaborative state-level advocacy. Joining forces with other programs in your state can amplify your voice and create the ability to influence state legislation and budgets that directly impact your programs. In this quickly evolving legislative and healthcare environment, building coalitions with colleagues is valuable and necessary.
