COMING SOON

MORE THAN A MEAL COMPREHENSIVE NETWORK STUDY

We're thrilled to be expanding our *More Than a Meal* body of research to all Members by creating a baseline understanding of the clients you support and the services you provide. Funded by Aetna and conducted by third-party research firm Trailblazer Research, the *More Than a Meal* Comprehensive Network Study will be a first-of-its-kind national profile that will enable us all to tell a more complete and compelling Meals on Wheels story. Armed with aggregate de-identified client and program information and data, we will all be able to give our collective partners and funders what they demand: data-driven, evidence-based solutions and local impact that can be scaled.

But none of this will be possible without the commitment of all Meals on Wheels America Members nationwide, in communities large and small, rural, urban and suburban.

Pledge to participate at www.mealsonwheelsamerica.org/networkstudy.
