The many drivers of change

Taking a different approach

We need a (different) team

Some thoughts for community organizations ...

New York Yankees Date: 06/17/06 Start: 01:20 PM Field: Washington RFK Memorial St.
Weather: 86 sunny

So how to (re)approach the integration of care with community?

- What are you assessing your patients' greatest needs to be? And how do you know that?
- On what data will you and your patient judge her success?
- What team do you already have assembled, and how do they organize/communicate?
- What positions are you having trouble filling, and how might we work together?
- How will we know when we have succeeded?

ADVANCING HEALTH IN AMERICA THE PATH FORWARD

Our vision: A society of healthy communities where all individuals reach their highest potential for health.

Our commitment:

Access: Access to affordable, equitable health, behavioral and social services

Value: The best care that adds value to lives

Partners: Embrace diversity of individuals and serve as partners in their health

Well-being: Focus on well-being and partnership with community resources

Coordination: Seamless care propelled by teams, technology, innovation and data

Our role: The 'H' of the future = Hospitals, Health systems, and Health organizations that are:

- Partnering and leading in our communities
- Striving toward the vision to advance health in America
- Helping our communities beyond the four walls of the hospital
- Creating new models of care, services and collaborators

Our Mission

To advance the health of individuals and communities. The AHA leads, represents and serves hospitals, health systems and other related organizations that are accountable to the community and committed to health improvement.

Driving Forces

- Affordability
- Coverage
- Consumerism
- Payment for Value
- New Technologies
- Chronic Care Management
- Consolidation
- Community Benefit

Strategic Priorities

- Performance Improvement
- Payment and Delivery Reforms
- Shaping Future Workforce
- Advocating for Access and Coverage
- Telling the Story

REDEFINING THE "H"

The "H" of the future is an interconnected ecosystem of Hospitals, Health systems and Health organizations that are:

Partnering and leading in our communities

Striving toward the vision to advance health in America

Creating new models of care, services and collaborators

Helping our communities beyond the four walls of the hospital

*Thank
you*
