

GET THE MOST OUT OF YOUR MEMBERSHIP

Your Meals on Wheels America Membership makes you – and every member of your staff and board – part of the nationwide network of senior nutrition programs working together to improve the lives of seniors across the country. Make sure you’re taking full advantage of everything your Membership has to offer!

INCREASE YOUR CAPACITY AND REDUCE EXPENSES

- **Member-Only Funding** – We continue to build national partnerships that provide much-needed funding and capacity building for your programs. In 2018, we distributed \$4.1 million directly to Members to expand services, fill funding gaps and feed more seniors in need.
- **Member Discount Program** – We’ve leveraged the buying power of the entire Meals on Wheels network to deliver huge savings on the products and services you use most. Members access discounts on food, vehicles, background checks, unemployment insurance and payroll services, technology, kitchen equipment and supplies, hotel rooms, and more!

BE A PART OF SOMETHING BIGGER

- **National Campaigns** – Members can leverage our turnkey community engagement campaigns – such as our annual March for Meals – to raise awareness and funding in your communities. And, the “America, Let’s Do Lunch™” PSA campaign has put Meals on Wheels in the national spotlight, successfully recruiting 130,000 volunteers to support local programs since its inception.
- **Advocacy and Legislative Efforts** – Not only do we fight for senior nutrition programs on Capitol Hill, we equip Members with the tools and information to build relationships with elected officials and advocate for more funding and policies at all levels of government to support your organizations and the seniors you serve.

LEARN AND GROW

- **Learning @ Meals on Wheels America** – Keeping up with the ever-changing field of senior nutrition and nonprofit management is no easy task, but our learning events and resources provide Members at all levels of their career with the necessary skills and competencies to advance their organization and better support the clients they serve.
- **Peer-to-Peer Networking** – We know there’s tremendous value to be learned from peers who are dealing with similar issues, and a Meals on Wheels America Membership connects you with other programs across the country.
- **National Research** – Members can be a part of making the case for increased federal, state, and local support, as well as capturing best practices and piloting innovative approaches.
- **Information to Keep You Current** – We work diligently to keep Members informed of industry insights, innovative practices, legislative developments and national initiatives so you can stay focused on running your programs.
